

District heating pipelines

HS Logger

District heating network monitoring

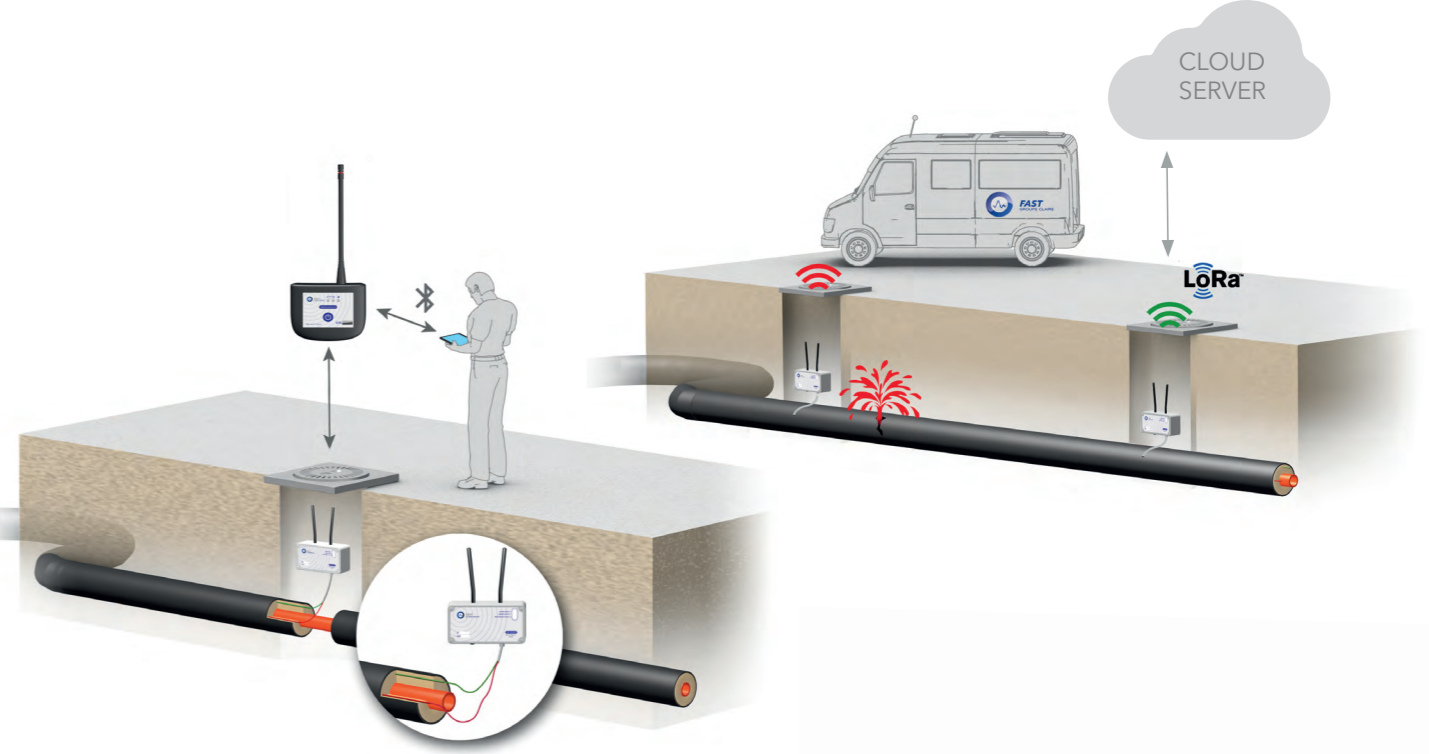

- ELECTRICAL RESISTANCE DATA LOGGER FOR BRANDES DISTRICT HEATING PIPELINES OR SIMILAR SYSTEMS
- BATTERY OPERATED, LASTS FOR UP TO 5 YEARS
- SOFTWARE HS LOG FREE AND EASY TO USE
- IP66 HOUSING WITH GROMMET FOR THE WIRES CONNECTING TO BRANDES SYSTEM PIPELINE

EQUIPMENT

APPLICATION

- Resistance measurement (Ohm) in district heating pipelines (BRANDES-System, etc.)
- Algorithm determines leak status based on 3 resistance values
- Data transmission via radio (433 MHz) to the tablet and / or remote transmission via LoRa WAN
