International Leak Detection SEMINAR

June 24th - 26^h 2026

We provide our customers with practical knowledge about our products as well as methods for leak detection in drinking water networks. All training sessions are consistently practice-oriented and conducted with a limited number of participants. Participants will thoroughly familiarize themselves with the handling of our products and systems, along with the corresponding leak detection procedures.

THEORETICAL PART:

- Water loss calculation
- Strategies for successful leak detection
- Physical fundamentals
- Technologies for leak and pipeline detection
- Pipe materials
- Zone measurement
- Technologies for pre-location
- Technologies for pinpoint detection
- Turbidity measurement

PRACTICAL PART:

- Pipeline detection
- Object detection
- Leak and pipeline detection using inline methods
- Leak detection with tracer gas
- Leak detection with correlation
- Leak detection with geophones
- Pipeline detection with pulse wave generator and geophone
- Noise loggers
- Pressure loggers
- Alternative methods

SEMINAR INCLUDES:

- 3 OVERNIGHT STAYS WITH BREAKFAST
- 3 SHARED LUNCHES
- 2 SHARED DINNERS
- COMPREHENSIVE TRAINING MATERIALS

Cost: EUR 1,395.00 PER PERSON (NET)

OPTIONAL: ADDITIONAL OVERNIGHT STAY + EUR 95

We offer a wide range of practice-oriented training sessions over three consecutive days. As a result, customers from various industries frequently take advantage of this opportunity.

Participants can register for the seminar, which will take place at our premises on the listed dates. We would be delighted to welcome you to our training center. If you have any questions, please do not hesitate to contact us at the phone number below.
